

## State of Connecticut Department of Education Health Assessment Record

To Parent or Guardian:

In order to provide the best educational experience, school personnel must understand your child's health needs. This form requests information from you (Part I) which will also be helpful to the health care provider when he or she completes the medical evaluation (Part II).

State law requires complete primary immunizations and a health assessment by a legally qualified practitioner of medicine, an advanced practice registered nurse or registered nurse, licensed pursuant to chapter 378, a physi-

cian assistant, licensed pursuant to chapter 370, a school medical advisor, or a legally qualified practitioner of medicine, an advanced practice registered nurse or a physician assistant stationed at any military base prior to school entrance in Connecticut (C.G.S. Secs. 10-204a and 10-206). An immunization update and additional health assessments are required in the 6th or 7th grade and in the 9th or 10th grade. Specific grade level will be determined by the local board of education. This form may also be used for health assessments required every year for students participating on sports teams

Verification of disease: Confirmation in writing by a MD, PA, or APRN that the child has a previous history of disease, based on family or medical history. |  |

## **GRADES 1-6**

• DTaP/Td/Tdap: At least 4 doses. The last dose must be given on or after 4th birthday; students who start the series at age 7 or older only need a total of 3 doses of tetanus-diphtheria containing vaccine.

- Hep B: 3 doses-the last dose on or after 24 weeks of age.
- Varicella: 2 doses given 3 months apart 1st dose on or after 1st birthday or verification of disease\*.

Note: The Commissioner of Public Health may issue a temporary waiver to the schedule for active immunization for any vaccine if the National Centers for Disease Control and Prevention recognizes a nation-wide shortage of supply for such vaccine.
